Interview Summary Pursuant to 37 C.F.R. § 1.133(b)

Because reconsideration is being requested in view of the telephone interview conducted on July 25, 2006 with the Examiner by Chris Streinz, appointed by Applicant's undersigned representative, on Applicant's behalf the following summary is submitted.

- 1) Pending claim 1 was discussed.
- 2) The specific prior art discussed was: U.S. Patent 6,761,771 to Satoh et al.
- 3) No originally proposed amendments were discussed.
- 4) Chris Streinz initiated the interview for the purpose of better understanding the Examiner's Response to Arguments section of the Office action of February 17, 2006. The Examiner explained his interpretation of the Satoh et al. reference and its relation to claim 1. The Examiner stated that it is his opinion that the claim 1 element beginning: "the shaft disposed to warp the substrate in a controlled manner . . ." is inherent in the Satoh et al. reference. On Applicants' behalf, Chris Streinz disagreed. Chris Streinz and the Examiner also discussed possible claim amendments.
- 5) No other matters were discussed.
- 6) No agreement was reached. The Examiner suggested that more specific claim language is required.
